

PANNEX wins Automechanika Innovation Award 2014

The powerful and eco-friendly tire sealant PANNEX is winner of the Automechanika Innovation Award in the category „Accessories“. The prize will be awarded to the PANNEX AG at the Automechanika trade show in Frankfurt on September 16th, 2014.

Out of 120 applicants in different categories a highly qualified jury of experts chose the brand new tire sealant PANNEX as the winner of the Automechanika Innovation Award. PANNEX wins the first prize in the category “Accessories”.

Innovative and eco-friendly

PANNEX convinced the jury particularly because of its eco-friendliness and powerful effectiveness. With PANNEX, the developers realised their aim to create an easily biodegradable and also powerful tire sealant.

“Winning the Automechanika Innovation Award makes us all very proud. We are convinced that our product will essentially change the market for tire sealants”, the management of the PANNEX AG is pleased.

Awards ceremony at Automechanika Frankfurt

On September 16th, 2014 PANNEX will receive the award during the opening-ceremony of the Automechanika in Frankfurt. The PANNEX AG is represented at hall 4.1 at stand D41 at the trade show (September 16th-20th). In addition, the spectacular “nail-biting nail tests” will be performed regularly on the open-air ground between hall 3 and 4. More information at: www.pannex.co.uk/automechanika.

Renowned prize of the automotive industry

The Automechanika Innovation Award is one of the most internationally renowned prizes of the automotive industry. Since 1996, Automechanika Frankfurt has been awarding the prize to the most innovative companies in nine categories.
